PROFESSIONAL SUMMARY

Data Analyst with over 1 year of experience in Python, SQL, Power BI, and Tableau. Skilled in data analysis, visualization, and predictive modeling to generate actionable insights. Proven ability to automate data processes, develop dashboards, and support data-driven decision-making in collaborative environments. Focused on enhancing efficiency, data accuracy, and business outcomes.

SKILLS

Technical Skills:

- **Programming:** Python (Scikit-learn, Pandas, NumPy, SciPy, Matplotlib, Seaborn)
- **Data Visualization:** Power BI, Tableau, MS Excel, Plotly
- **Database Management:** MySQL, PostgreSQL, MongoDB
- **Tools:** Flask, Jupyter Notebooks, VS Code, Git
- **Data Analytics:** Predictive Analytics, Business Intelligence, KPI Reporting, Statistical Analysis

Soft Skills:

- Problem-solving, Communication, Collaboration, Critical Thinking, Agile & Scrum methodologies

WORK EXPERIENCE

Fairdeal.Market

Business Data Analyst

September 2023 – February 2024

- **Designed and implemented dashboards** in Excel and Power BI, increasing **decision-making efficiency by 30%**.
- Engineered a **Python-based data extractor** using Flask, automating information retrieval and reducing **manual extraction time by 40%**.
- Led a team project to standardize data formats, resulting in a **10% reduction in data discrepancies** and improved reporting consistency.

Fairdeal.Market

Data Analyst Intern

June 2023 – August 2023

- Contributed to the **creation of a no-code brand dashboard**, accelerating deployment time by **25%**.
- **Improved data quality by 20%** through rigorous testing and validation, enhancing accuracy in business reporting.
- Collaborated with cross-functional teams to **enhance data collection strategies** and streamline reporting processes.

INB Vacations

Data Analyst Intern

July 2022 – December 2022

- Optimized pipeline efficiency using **SQL and Python**, improving **operational effectiveness by 15%**.
- Developed a **data-driven dashboard in Power BI**, leading to a **15% improvement** in decision-making.
- Automated data extraction processes, **reducing** manual work by **20%** and **increasing** data analysis speed by **30%**

PROJECTS

Olympic Games Analysis [Power BI | SQL]

- Created a **Power BI dashboard** to visualize historical Olympic Games data, **increasing user engagement by 20%** and providing insights into country performance over time.

Data Science Job Analysis (2023) [SQL | PostgreSQL]

- Queried data from job postings **SQL** and **PostgreSQL**, offering insights into industry trends and in-demand skills.

Predicting Credit Card Consumption [Python | Predictive Modelling]

- Developed a **predictive model using Python** to forecast customer credit card usage, achieving 85% accuracy and enabling proactive financial planning.

Sales Trends Analysis for Pharmaceutical Company [Python | Data Visualization]

- Designed a **data-driven dashboard** to visualize sales trends and identify key performance indicators (KPIs), providing actionable insights that improved sales planning.

Text Extraction and NLP Analysis for Web Articles [Python | NLP]

- Created a **Python** solution for text extract and analysis using **Natural Language Processing (NLP)** techniques, generating sentiment scores, readability metrics, and complexity indices to provide comprehensive insights.

EDUCATION

Master of Computer Applications

Bharati Vidyapeeth's Institute of Computer Applications and Management

New Delhi

August 2017 - May 2020

CGPA: 6.9

Bachelor of Computer Applications

Institute of Information Technology & Management

New Delhi

August 2014 - May 2017

CGPA: 7.9

CERTIFICATIONS

- Data Analytics with Python, AnalytixLabs (2021)
- AI & Deep Learning using Python, AnalytixLabs (2022)
